CVAS offers a wide range of ESL classes from beginning to advanced. Students are initially assessed and placed into an appropriate class where they improve in listening, speaking, reading, and writing. Instruction is given to enhance these skills so students can communicate effectively beyond the classroom. Students begin to carry on dialogs in English at work and other places in the community. As students develop a stronger proficiency of Life Skills, they have the opportunity to advance even further in intermediate and advanced courses which focus on fluency and more complex structures in addition to basic grammar. Whether your goal is to speak correctly for job interviews or advance to higher education, CVAS has a course suited for you.
